# 1 Background

## 1.1 Introduction

The White Bay Cruise Terminal (WBCT) is a purpose-built cruise passenger terminal located at White Bay Wharf 5 (WB5), with secondary berthing at White Bay Wharf 4 (WB4).

On the 2 February 2011, the former Sydney Ports Corporation (now Port Authority of NSW) received approval for Major Project 10\_0069 under Part 3A (now repealed) of the *Environmental Planning and Assessment Act 1979* (EP&A Act) to demolish an assortment of buildings and structures on the site, construct the White Bay Cruise Terminal (WBCT) and internal access road, operate the facility with berthing for up to two cruise ships, with the second ship serviced by a temporary terminal facility at WB4, and the use of the WBCT for functions, exhibitions and corporate events on non-cruise ship days (Note: the Major Project 10\_0069 approval was transitioned to Division 5.2 Part 5 of the EP&A Act on 31 May 2019, and is referred to in this OEMP as the Project Approval).

The WBCT was constructed during 2012 and the first quarter of 2013 and the then Sydney Ports Corporation commenced cruise operations at the WBCT in April 2013.

Port Authority of New South Wales (the Port Authority) was established in July 2014 with the amalgamation of the Sydney, Newcastle and Port Kembla Port Corporations. Port Authority retained the significant maritime roles of Harbour Master, management of dangerous goods and emergency response plus responsibility for the navigation, security and operational safety needs of commercial shipping operating on Sydney Harbour. The Port Authority, which is a state-owned corporation, also owns and operates the WBCT.

Relevant to the Functions use of the WBCT, a modification was approved on 27 August 2020 (MOD 6) allowing an increase in the number of attendees at functions from 500 to a maximum of 2,500 patrons at any one time during a 3-year trial period and at the completion of the trial period as required under MP 10\_0069. MOD 6 documents are available in the Major Project's website:

<https://www.planningportal.nsw.gov.au/major-projects/projects/mod-6-events-and-functions>.

In accordance with the Project Approval, the Functions OEMP was updated to address the requirements of MOD 6 and the OEMP was approved by DPE in January 2022. The approved Functions OEMP is available on the Port Authority's website: <https://www.portauthoritynsw.com.au/media/5257/wbct-funtions-oemp-jan-22-complete.pdf>.

The first function over 500 patrons at the WBCT was undertaken on 30 November 2021, which triggered the commencement of the 3-year trial period for functions between 501 and 2,500 patrons.

This Report, covering the period 30 November 2021 to 30 November 2022, is the first annual Function Performance Report for the 3-year trial period. This Function Performance Report has been prepared in accordance with the Conditions detailed in A11 to A19 of the consolidated conditions of the Project Approval.

## 2 Trial Period

### 2.1 Condition A11

*'The Proponent may hold functions between 501 and 2,500 patrons, for a trial period of three years from a date notified by the Proponent to the Planning Secretary, unless otherwise agreed by the Planning Secretary.'*

In accordance with this condition, Port Authority notified the Planning Secretary of the commencement of the 3-year trial period, from 30 November 2021, the first date a function with over 500 patrons was planned to be held. See Appendix A for Port Authority's letter to the Planning Secretary, dated 26 November 2021.

As indicated above, this report covers the first 12-months of the trial period, from the 30 November 2021 to 30 November 2022.

## 2.2 Condition A12

*'During the three-year trial period, the Proponent must hold a minimum of two functions within each of the following trial function categories:*

Table 00

| <b>Trial function category</b> | <b>Number of patrons</b> |
|--------------------------------|--------------------------|
| Small trial function           | 501 to 1000 patrons      |
| Medium trial function          | 1001 to 1500 patrons     |
| Large trial function           | 1501 to 2500 patrons     |

The following trial functions were held in each of the following categories in Year 1 of the trial period:

| <b>Trial function category</b> | <b>Number of trial functions held</b> |
|--------------------------------|---------------------------------------|
| Small trial function           | 6                                     |
| Medium trial function          | 0                                     |
| Large trial function           | 0                                     |

## 2.3 Condition A13

*'For each trial function category identified in Condition A12, a minimum of two types of functions must be held, such as an indoor function, an outdoor function in the WB4 hardstand area and/or WB5 car park, or an indoor and outdoor function in the WB4 hardstand area and/or WB5 car park.'*

The following type of functions were held for each of the following trial function categories in the first year of reporting:

| <b>Trial function category</b> | <b>Type of function</b> |   |  | <b>Minimum 2 types of functions held?</b> |
|--------------------------------|-------------------------|---|--|---|
|                                | <b>Indoor (WBCT)</b>    | <b>Outdoor (WB4 hardstand area and/or WB5 car park)</b> | <b>Indoor and Outdoor (WB4 hardstand area and/or WB5 car park)</b> |   |
| <b>Small trial function</b>    | 3                       | 0   | 3  | Yes                                       |
| <b>Medium trial function</b>   | 0                       | 0   | 0  | No  |
| <b>Large trial function</b>    | 0                       | 0   | 0  | No  |

Two types of functions were held for the small trial function category.

## 2.4 Condition A14

*'If the minimum number of trial functions identified in condition A12 are not held during the three-year trial period, the trial period for these types of trial functions continues until such time they are held.'*

As shown in Section 2.3, two types of small trial functions were held during Year 1 of the 3-year trial period. If the minimum number of trial functions identified in condition A12 are not held in the 3-year trial period, then the trial period for these types of trial functions would continue until such time they are held.

## 2.5 Condition A15

*'The Proponent must prepare a Function Performance Report at the conclusion of each 12-month period (reporting period) of the trial period, or at such other times as directed by the Planning Secretary. The Function Performance Report must be submitted to the Planning Secretary no later than one month following each reporting period.'*

In accordance with Condition A15, this Function Performance Report was prepared at the conclusion of the first 12-month period (reporting period) of the trial period.

## 2.6 Condition A17

*'A copy of each Function Performance Report must be provided to the Council, EPA, TfNSW and the Community Liaison Group within one month of the end of the reporting period and made publicly available on the Proponent's website.'*

In accordance with Condition A17, a copy of this Function Performance Report will be provided to the Council, EPA, TfNSW and the Community Liaison Group for their information and made publicly available on Port Authority of NSW's website.

## 2.7 Condition A18

*'Should the minimum trial function requirements identified in Condition A12 not occur during the trial period, then Function Performance Reports must continue to be prepared in accordance with conditions A15 and A16. The Function Performance Reports must be submitted to the Planning Secretary within one month following the holding of such trial functions.'*

In accordance with Condition A18, if the minimum trial function requirements identified in Condition A12 do not occur during the 3 year trial period, then Function Performance Reports will continue to be prepared in subsequent years in accordance with conditions A15 and A16.

## 2.8 Condition A19

*'Following the completion of the trial period incorporating a minimum of two types of functions in each trial function category, the Proponent may seek the Planning Secretary's approval to:*

- a) continue holding functions equivalent to the trial function categories that were held during the trial period;*
- b) permit functions that are likely to generate audible noise at any sensitive receiver to the hours of 7:00 am to 12:00 midnight, 4 days in any week (Conditions D6); and*
- c) permit an increase in the noise level of background music played in the area on the southern side of the terminal building to no more than 72 dBA (Condition D10).'*

Port Authority is in the second year of the 3-year trial period, and therefore this condition is not yet applicable.

# 3 Function Performance Report

## 3.1 Condition A16

The requirements of condition A16 are addressed in Table 1 below.

**Table 1: Condition A16 – Function Performance Report**

| Condition A16  | Assessment of performance   |
|--|---|
| <p><i>A16 The Function Performance Report must address:</i></p> <p>a) <i>an assessment of the trial function’s performance and compliance with the (relevant) terms of this approval, including any approved monitoring and management plans and any other licences, permits or approvals, and interpretation and discussion of these results;</i></p>   | <p>An assessment of the trial function’s performance and compliance with the (relevant) terms of this approval has been assessed in this table (Table 1) and Table 2 below.</p> <p>Functions over 500 people in the first-year trial have complied with the relevant terms of this approval.</p> <p>In summary, six small trial functions (between 501 and 1000 patrons) were successfully held during the first year of the trial period. These functions were compliant with the Project Approval and the approved Functions OEMP. No environmental or amenity issues occurred during the functions. No complaints were received in relation to any of these functions.</p> |
| <p>b) <i>the results of noise monitoring carried out for each trial function under condition A12 and as required by Condition D12. Notwithstanding, noise monitoring must be carried out for large trial functions with outdoor activities from 6:00 pm and up to 12:30 am in the area to the south of the cruise terminal building. Noise monitoring is to be undertaken in accordance with AS1055 for outdoor sound level measurements, or a commensurate method identified in the Operational Noise Management Plan for functions;</i></p> <p>Condition A12 states that ‘During the three-year trial period, the Proponent must hold a minimum of two functions within each of the following trial function categories: Small (501-1000), medium (1001-1500) &amp; large (1501-2500).’</p> <p>Condition D12 states that ‘Noise monitoring must be carried out for functions incorporating amusement rides or similar activities, and outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am.’</p> | <p>Six small functions were held during this first-year trial period. No noise monitoring was required for these six functions, as they did not trigger Condition D12. I.e., These functions did not incorporate amusement rides or similar activities and there were no outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am.</p>  |
| <p>c) <i>a comparison of the environmental impacts and performance of the trial function against the environmental impacts and performance predicted in the documents listed in condition A1 and as modified by conditions of this approval;</i></p> <p>The following documents are listed in Condition A1:</p>  | <p>An assessment of the trial function’s performance and compliance with the (relevant) terms of this approval has been assessed in this table (Table 1) and Table 2 below.</p> <p>Functions over 500 people in the first-year trial have complied with the relevant terms of this approval.</p>  |

| Condition A16  | Assessment of performance  |
|--|--|
| <ul style="list-style-type: none"> <li>a) Major Project Application 10_0069;</li> <li>b) White Bay Cruise Passenger Terminal – Environmental Assessment, prepared by JBA Planning on behalf of Sydney Ports Corporation and dated September 2010;</li> <li>c) White Bay Cruise Passenger Terminal – Response to Submissions Report, prepared by JBA Planning on behalf of Sydney Ports Corporation and dated December 2010;</li> <li>d) modification application MP 10_0069 MOD 2, as modified by the Response to Submissions document dated 17 July 2012, prepared by JBA Urban Planning Consultants Pty Ltd;</li> <li>e) modification application MP 10_0069 MOD 4, as modified by the Response to Submissions document dated 25 January 2013, prepared by JBA Urban Planning Consultants Pty Ltd;</li> <li>f) modification application MP 10_0069 MOD 3, as modified by the Response to Submissions document dated 7 September 2012, prepared by JBA Urban Planning Consultants Pty Ltd;</li> <li>g) Statement of Commitments in Annexure 1 of this approval, as modified;</li> <li>h) modification application MP 10_0069 MOD 6, as modified by the Response to Submissions document dated March 2020; and</li> <li>i) conditions of this approval.</li> </ul> | <p>The functions during the first-year trial showed no environmental or amenity impacts. No traffic or noise impacts occurred during these functions. No complaints were received in relation to any of the functions.</p>   |
| <p>d) <i>a list of occasions in any preceding reporting period where environmental performance requirements for the trial function have not been achieved indicating the reason for failure to meet the requirements and the action taken to prevent recurrence of that type of incident and/or noncompliance;</i></p>   | <p>All environmental performance requirements for the trial function have been met. There have been no environmental or amenity impact, incidents or non-compliances with the conditions of approval during this trial period.</p>   |
| <p>e) <i>identification of trends in monitoring data of trial functions over the duration of the reporting period;</i></p>   | <p>As indicated above, no noise monitoring was required during the first year of the trial period. During this first-year trial period, the following is noted:</p> <ul style="list-style-type: none"> <li>- No complaints were received associated with any of the functions.</li> <li>- There were no traffic or parking issues in any of the functions, including no adverse reporting from the 24/7 security gate at the port access road to the WBCT or other stakeholders.</li> <li>- There were no structures at any of these events.</li> <li>- There were no amusement rides or similar outdoor activities.</li> <li>- There were no functions or activities held outdoors in the WB4 hardstand area or WB5 car park past 6pm. The requirement for noise monitoring of the</li> </ul> |

| Condition A16   | Assessment of performance   |
|---|---|
|   | <p>activity, and to notify surrounding residents of the event was therefore not triggered.</p> <ul style="list-style-type: none"> <li>- There was no outside background music at any of the events.</li> <li>- There were no medium or large trial functions.</li> </ul>      |
| <p><i>f) details of the complaints received and how these complaints were addressed and resolved including a description of any outstanding complaints and reasons why they have not been resolved;</i></p> | <p>No complaints were received from any functions at the WBCT for functions over 500 people, during the first-year trial period.</p>  |
| <p><i>g) environmental management targets and strategies for the following reporting period, taking into account identified trends in monitoring results; and</i></p>                                       | <p>Based on the successful function performance of the first year of the trial, no new environmental management targets or strategies, other than those already incorporated in the approved Functions OEMP, are considered necessary for the following reporting period.</p> |
| <p><i>h) the Proponent's response to any requirements imposed by the Planning Secretary on the preceding Function Performance Report.</i></p>   | <p>N/A as this is the first Function Performance Report prepared.</p>   |

**Table 2: Other relevant conditions**

| Reference # | Consolidated Conditions of approval  | Compliant / Non-compliant in the first-year trial period?  |
|-------------|--|--|
| D4          | <p><b>Operation Noise Limits – Functions</b></p> <p>The Proponent must design, construct, operate and maintain the project to ensure that the LA10 noise emitted from Functions must not exceed the background noise level in an Octave Band Centre Frequency (31.5Hz – 8kHz inclusive) by more than 5db between 7.00am and 12:00 midnight at the boundary of any affected sensitive receiver.</p> <p>The Proponent must ensure that the LA10 noise emitted from Functions must not exceed the background noise level in an Octave Band Centre Frequency (31.5Hz – 8kHz inclusive) between 12:00 midnight and 7.00 am at the boundary of any affected sensitive receiver.</p> <p>For the purpose of this condition, the LA10 can be taken as the average maximum deflection of the noise emission from the site.</p> | <p>Compliant. The WBCT has been designed, constructed and operated to meet the noise levels in Condition D4.</p> <p>Note: This condition is covered in the Functions OEMP: Section 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>  |
| D4A         | <p>The Proponent must ensure that a noise limiter capable of limiting and controlling amplified music is used on all audio equipment for functions and will result in compliance with the LA10 noise limits in Condition D4.</p>   | <p>Compliant. The Venue Hire Agreement issued to function companies legally requires them to comply with the noise levels in the Project Approval, and also requires the following:</p> <p>All AV Equipment capable of emitting music or public announcements must be controlled by an appropriate software-based noise limiter to ensure that this maximum noise limit is observed.</p> <p>Note: This condition is also covered in the Functions OEMP: Section 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p> |
| D5          | <p><b>Operating Hours – Cruise Ship Days and Functions</b></p> <p>The Proponent must only undertake setup, dismantling, delivery or removal of temporary structures, and amusement rides associated with the project that would generate an audible noise at any residential premises during the following hours:</p> <p>(a) 7:00 am to 6:00 pm, Mondays to Fridays, inclusive;</p>  | <p>This condition was not triggered, as there were no structures at any functions.</p> <p>Note: This condition is covered in the Functions OEMP: Section 1.2 (Project Description), 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>   |

| Reference # | Consolidated Conditions of approval  | Compliant / Non-compliant in the first-year trial period?   |
|-------------|--|---|
|             | (b) 8:00 am to 1:00 pm on Saturdays; and<br>(c) at no time on Sundays or public holidays.  |   |
| D6          | <p>Functions that are likely to generate an audible noise at any sensitive receiver must be limited to 7:00am to 11:30 pm, 4 days in any week, unless otherwise agreed by the Planning Secretary. All patrons are to vacate the site by 12:00 midnight. The Proponent is to provide appropriate venue management staff to supervise patrons vacating the site to ensure that noise and disturbance is minimised.</p> <p>Notwithstanding the above, functions that are likely to generate audible noise at any sensitive receiver must be limited to 7:00 am to 12:00 midnight, 4 days in any week, for all functions during the trial period in accordance with condition A11, and following the completion of the trial period, in accordance with condition A18. All patrons are to vacate the site by 12:30 am.</p> | <p>Compliant. Functions that were likely to generate audible noise at any sensitive receiver were limited to 7:00 am to 12:00 midnight, 4 days in any week.</p> <p>All patrons vacated the site by 12:30am.</p> <p>Note: This condition is covered in the Functions OEMP: Section 1.2 (Project Description), 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>   |
| D7          | The operation of amusement rides must only occur 5 times a year. The operation of amusement rides and similar outdoor activities must only be undertaken between 7:00am and 10:00pm Monday to Saturday and between 9:00am and 6:00pm Sundays or public holidays, unless otherwise agreed by the Director-General.  | <p>This condition was not triggered, as there were no amusement rides or similar outdoor activities at any functions.</p> <p>Note: This condition is covered in the Functions OEMP: Section 1.2 (Project Description), 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>   |
| D8          | <p><b>Operating Activities – Functions</b></p> <p>Amusement rides and similar activities, must only be erected in front of the terminal building so as to provide effective noise shielding to surrounding residences in Balmain and Rozelle and other noise sensitive receivers.</p>  | <p>This condition was not triggered, as there were no amusement rides or similar outdoor activities at any functions.</p> <p>Note: this condition is included in the Venue Hire Agreement, which states that 'If the Hirer intends to use the Venue for amusement rides or other similar outdoor activities, then '...the amusement rides or other temporary structures may only be located on the southern side of the Terminal building'.</p> <p>Note: This condition is covered in the Functions OEMP: Section 1.2 (Project Description), 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p> |
| D9          | Amusement Rides and other equipment to be used outside for functions must have a maximum sound power level of 106dBA.  | This condition was not triggered, as there were no amusement rides or similar outdoor activities at any functions.  |

| Reference # | Consolidated Conditions of approval  | Compliant / Non-compliant in the first-year trial period?  |
|-------------|--|--|
|             |  | <p>Note: this condition is covered in the Venue Hire Agreement</p> <p>Note: This condition is covered in the Functions OEMP: Section 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>  |
| D10         | <p>Amplified music other than background music must be confined to inside the terminal building with all doors and windows closed and the roof sealed. For the purpose of this condition, 'background music' is music that is less than 67 dBA at 10 metres from speakers in any direction.</p> <p>Notwithstanding the above, 'background music' may be played outside the terminal building with the location of the speakers restricted to the southern side of the terminal building, at a height of no greater than 4 m above the ground, and at a sound level no greater than 72 dBA at 10 metres from the speakers in any direction, for all functions during the trial period in accordance with condition A11, and following the completion of the trial period, in accordance with condition A18.</p> | <p>The outside background music condition wasn't triggered, as there was no outdoor background music at any functions.</p> <p>Note: the outside background music requirements are included in the Venue Hire Agreement.</p> <p>Note: This condition is covered in the Functions OEMP: Section 1.2 (Project Description), 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>  |
| D12         | <p><b>Noise Monitoring – Functions</b></p> <p>Noise monitoring must be carried out for functions incorporating amusement rides or similar activities, and outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am.</p> <p>The results of the monitoring must be provided to the Department on a quarterly basis (with the report required by condition D13) and made available to the EPA, Police and Council upon request. Noise monitoring is to be undertaken in accordance with AS1055 for outdoor sound level measurements, or a commensurate method identified in the Operational Noise Management Plan (Functions).</p>  | <p>This condition was not triggered, as there were no functions incorporating amusement rides or similar activities, and outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am.</p> <p>Note: This condition is covered in the Functions OEMP: Section 3.2 Table 9 (Noise Management) and Appendix A (Noise Management Plan).</p>  |
| D13         | <p>At the end of each quarter the Proponent must prepare a Compliance Summary Report. The report must provide a summary of:</p> <p>(a) each function held and the number of patrons permitted in each hall;<br/> (b) any event compliance issues for that quarter, particularly in relation to:</p> <p><i>i.</i> noise impacts and monitoring results, including complaints received; and</p>  | <p>Compliant. This condition applies to functions under 500 patrons. Compliance Reporting for the trial period (functions over 500) is undertaken under Conditions A15-A16 (this report is for the first year of the trial period).</p> <p>Note: In accordance with Condition D13, quarterly compliance reports (for functions under 500 people) are provided to DPE on request (note also that the Compliance Tracking Program required</p> |

| Reference # | Consolidated Conditions of approval  | Compliant / Non-compliant in the first-year trial period?   |
|-------------|--|---|
|             | <p><i>ii.</i> traffic impacts.</p> <p>The report must be integrated into the Compliance Tracking Program required under condition B38 and made available to the Director-General on request.</p>   | <p>under Condition B38 was to operate for a minimum of five years following commencement of operation and this time has well lapsed).</p> <p>Note: This condition is covered in the Functions OEMP: Section 2.5 (Reporting).</p>  |
| D14         | <p><b>COMMUNITY INFORMATION</b></p> <p>The Proponent must notify surrounding residents, Council and the Police seven days prior to functions incorporating amusement rides or similar activities, and outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am. The notice must include the following:</p> <ul style="list-style-type: none"> <li>(a) date and nature of the function;</li> <li>(b) the hours of operation for the function and expected patron numbers;</li> <li>(c) details of bump-in and bump-out activities;</li> <li>(d) proposed outdoor activities; and</li> <li>(e) the name and contact number for an appropriate venue representative. The representative must be on site for the entire function.</li> </ul> | <p>This condition was not triggered, as there were no functions incorporating amusement rides or similar activities, and outdoor activities in the WB4 hardstand area and/or WB5 car park from 6:00 pm and up to 12:30 am.</p> <p>Note: This condition is covered in the Functions OEMP: Section 2.4 (Complaints and Response Procedure) and 3.2 Table 10 (Operational Environmental Management Issue – Community Consultation, Enquiries and Complaints System).</p> |

## 4 Conclusions

In conclusion, six small trial functions (between 501 and 1000 patrons) were successfully held during the first year of the trial period. These functions were compliant with the Project Approval and the approved Functions OEMP. No environmental or amenity issues occurred during the functions. No complaints were received in relation to any of these functions.

# 5 Appendices

## 5.1 Appendix A: Letter to DPIE commencement Trial Period

Department of Planning, Industry and Environment  
Planning Secretary  
4 Parramatta Square, 12 Darcy Street  
Parramatta NSW 2150

Dear Sir, Madam

**Re: White Bay Cruise Terminal (MP 10\_0069) – First Function over 500 patrons Notification of Commencement of Trial Period**

In accordance with Condition A11 of MP10\_0069, Port Authority of NSW (Port Authority) notifies the Planning Secretary of the commencement of the 3-year trial period for functions between 501 and 2,500 patrons with a function planned to be held on 30 November 2021.

Should you have any questions, please do not hesitate to contact the undersigned ([csams@portauthoritynsw.com.au](mailto:csams@portauthoritynsw.com.au)) or Ricardo Prieto-Curiel ([rprieto-curiel@portauthoritynsw.com.au](mailto:rprieto-curiel@portauthoritynsw.com.au)) on 0439 309 614.

Yours sincerely,

**Christa Sams**  
Environment Operations Manager
